PLEASE READ: THIS DOCUMENT CONTAINS INFORMATION ABOUT THE DRUGS WE COVER IN THIS PLAN.

This formulary was updated on 09/06/2016. For more recent information or other questions, please contact Humana Medicare Employer Plan at the number on the back of your membership card or, for TTY users, 711, Monday through Friday, from 8 a.m. - 9 p.m. Eastern time. Our automated phone system may answer your call on Saturdays, Sundays, and some public holidays. Please leave your name and telephone number, and we’ll call you back by the end of the next business day, or visit Humana.com.
Welcome to Humana Medicare Employer Plan!

Note to existing members: This formulary changes yearly. If you belonged to the plan in 2015, please review this document to make sure that it still contains the drugs you take.

What is the formulary?
A formulary is the list of covered drugs selected by the Humana Medicare Employer Plan. The Humana Medicare Employer Plan worked with a team of doctors and pharmacists to make a formulary that represents the prescription drugs we think you need for a quality treatment program. The Humana Medicare Employer Plan will generally cover the drugs listed in our formulary as long as the drug is medically necessary, the prescription is filled at a Humana Medicare Employer Plan network pharmacy, and other plan rules are followed. For more information on how to fill your prescriptions, please review your Evidence of Coverage.

Can the formulary change?
Generally, we won’t discontinue or reduce coverage of the drug during the 2016 coverage year if you take a drug that was covered at the beginning of the year. However, we may change the formulary when a new, less-expensive generic drug becomes available or when new information about the safety or effectiveness of a drug is released.

We’ll notify you if you are affected by the following changes to our formulary:
• When we remove a drug from the formulary
• When we add prior authorization, quantity limits, or step-therapy restrictions on a drug
• When we move a drug to a higher cost-sharing tier

What if you're affected by a formulary change?
We'll notify you at least 60 days before one of these changes happens or when you request a refill of the affected drug.

If the Food and Drug Administration (FDA) decides a drug on our formulary is unsafe or the drug’s manufacturer takes the drug off the market, we’ll immediately remove the drug from our formulary and then notify you if you’re taking the drug.

The enclosed formulary is current as of September 2016. We’ll update our printed formularies each month and they’ll be available on Humana.com/medicaredruglist.

To get updated information about the drugs that Humana covers, please visit Humana.com/medicaredruglist. The Drug List Search tool lets you search for your drug by name or drug type.

If you’re thinking about enrolling in a Humana Medicare Employer Plan and need help or information, call the Group Medicare Customer Care number listed in your enrollment materials. If you’re a current member, call the number listed in your Annual Notice of Change (ANOC) or Evidence of Coverage (EOC), or call the number on the back of your Humana member identification card Monday through Friday, from 8 a.m. to 9 p.m. Eastern time. Our automated phone system may answer your call on Saturdays, Sundays, and some public holidays. Please leave your name and telephone number, and we’ll call you back by the end of the next business day.
How do I use the formulary?
There are two ways to find your drug in the formulary:

Medical condition
The formulary starts on page 10. We've put the drugs into groups depending on the type of medical conditions that they're used to treat. For example, drugs that treat a heart condition are listed under the category “Cardiovascular Drugs.” If you know what medical condition your drug is used for, look for the category name in the list that begins on page 10. Then look under the category name for your drug. The formulary also lists the Tier and Utilization Management Requirements for each drug (see page 5 for more information on Utilization Management Requirements).

Alphabetical listing
If you're not sure about your drug’s category or group, you can look for your drug in the Index that begins on page 158. The Index is an alphabetical list of all of the drugs included in this document. Both brand-name drugs and generic drugs are listed. Look in the Index to search for your drug. Next to each drug, you'll see the page number where you can find coverage information. Turn to the page listed in the Index and find the name of the drug in the first column of the list.

Prescription drugs are grouped into one of four tiers. The Humana Medicare Employer Plan covers both brand-name drugs and generic drugs. A generic drug is approved by the FDA as having the same active ingredient as the brand-name drug. Generally, generic drugs cost less than brand-name drugs.

- **Tier 1 - Generic or Preferred Generic:** Generic or brand drugs that are available at the lowest cost share for the plan
- **Tier 2 - Preferred Brand:** Generic or brand drugs that the plan offers at a higher cost to you than Tier 1 Generic or Preferred Generic, and at a lower cost to you than Tier 3 Non-Preferred Brand drugs
- **Tier 3 - Non-Preferred Brand:** Generic or brand drugs that the plan offers at a higher cost to you than Tier 2 Preferred Brand drugs
- **Tier 4 - Specialty Tier:** Some injectables and other high-cost drugs

How much will I pay for covered drugs?
The Humana Medicare Employer Plan pays part of the costs for your covered drugs and you pay part of the costs, too.

The amount of money you pay depends on:
- Which tier your drug is on
- Whether you fill your prescription at a network pharmacy
- Your current drug payment stage - please read your Evidence of Coverage (EOC) for more information

If you qualified for extra help with your drug costs, your costs may be different from those described above. Please refer to your Evidence of Coverage (EOC) or call Group Medicare Customer Care to find out what your costs are.
Are there any restrictions on my coverage?
Some covered drugs may have additional requirements or limits on coverage. These are called Utilization Management Requirements. These requirements and limits may include:

- **Prior Authorization (PA):** The Humana Medicare Employer Plan requires you to get prior authorization for certain drugs to be covered under your plan. This means that you'll need to get approval from the Humana Medicare Employer Plan before you fill your prescriptions. If you don't get approval, the Humana Medicare Employer Plan may not cover the drug.

- **Quantity Limits (QL):** For some drugs, the Humana Medicare Employer Plan limits the amount of the drug that we’ll cover. The Humana Medicare Employer Plan might limit how many refills you can get or how much of a drug you can get each time you fill your prescription. For example, if it’s normally considered safe to take only one pill per day for a certain drug, we may limit coverage for your prescription to no more than one pill per day. Specialty drugs are limited to a 30-day supply regardless of tier placement.

- **Step Therapy (ST):** In some cases, the Humana Medicare Employer Plan requires you to first try certain drugs to treat your medical condition before we’ll cover another drug for that condition. For example, if Drug A and Drug B both treat your medical condition, the Humana Medicare Employer Plan may not cover Drug B unless you try Drug A first. If Drug A does not work for you, the Humana Medicare Employer Plan will then cover Drug B.

- **Part B versus Part D (B vs D):** Some drugs may be covered under Medicare Part B or Part D depending upon the circumstances. Information may need to be submitted to the Humana Medicare Employer Plan that describes the use and the place where you receive and take the drug so we can make the determination.

For drugs that need prior authorization or step therapy or drugs that fall outside of quantity limits, your doctor can fax information about your condition and need for those drugs to the Humana Medicare Employer Plan at 1-877-486-2621. Representatives are available Monday - Friday, 8 a.m. - 6 p.m.

You can find out if your drug has any additional requirements or limits by looking in the formulary that begins on page 10.

You can also visit [Humana.com/medicaredruglist](http://Humana.com/medicaredruglist) to get more information about the restrictions applied to specific covered drugs.

You can ask the Humana Medicare Employer Plan to make an exception to these restrictions or limits. See the section "[How do I request an exception to the formulary?](#)" on page 6 for information about how to request an exception.

What if my drug isn’t on the formulary?
If your drug isn’t included in this list of covered drugs, visit [Humana.com/medicaredruglist](http://Humana.com/medicaredruglist) to see if your plan covers your drug. You can also call Group Medicare Customer Care and ask if your drug is covered.

If the Humana Medicare Employer Plan doesn't cover your drug, you have two options:

- You can ask Group Medicare Customer Care for a list of similar drugs that the Humana Medicare Employer Plan covers. Show the list to your doctor and ask him or her to prescribe a similar drug that is covered by the Humana Medicare Employer Plan.

- You can ask the Humana Medicare Employer Plan to make an exception and cover your drug. See below for information about how to request an exception.

Talk to your doctor to decide if you should switch to another drug that we cover or if you should request a formulary exception so that we'll cover your drug.
How do I request an exception to the formulary?
You can ask the Humana Medicare Employer Plan to make an exception to our coverage rules. There are several types of exceptions that you can ask us to make.

- **Formulary exception**: You can ask us to cover your drug if it’s not on our formulary.
- **Utilization restriction exception**: You can ask us not to apply coverage restrictions or limits on your drug. For example, if your drug has a quantity limit, you can ask us to not apply the limit and to cover more doses of the drug.
- **Tier exception**: You can ask us to provide a higher level of coverage for your drug. For example, if your drug is usually considered a non-preferred drug, you can ask us to cover it as preferred drug instead. This would lower how much money you must pay for your drug. Please remember that you can’t ask us to provide a higher level of coverage for the drug if we grant your request to cover a drug that is not on our formulary.

Generally, the Humana Medicare Employer Plan will only approve your request for an exception if the alternative drugs included on the plan’s formulary, the lower cost-sharing drug, or other restrictions wouldn’t be as effective in treating your health condition and/or would cause adverse medical effects.

You should contact us to ask for an initial coverage decision for a formulary, tier, or utilization restriction exception. When you ask for an exception, you should submit a statement from your doctor that supports your request. This is called a supporting statement.

Generally, we must make our decision within 72 hours of getting your doctor’s supporting statement. You can request a quicker, or expedited, exception if you or your doctor thinks your health would seriously suffer if you wait as long as 72 hours for a decision. If your request to expedite is granted, we must give you a decision no later than 24 hours after we get your doctor’s supporting statement.

**Will my plan cover my drugs if they are not on the formulary?**
You may take drugs that your plan doesn’t cover. Or, you may talk to your provider about taking a different drug that your plan covers, but that drug might have a Utilization Management Requirement, such as a Prior Authorization or Step Therapy, that keeps you from getting the drug right away. In certain cases, we may cover as much as a 30-day supply of your drug during the first 90 days you’re a member of our plan.

Here is what we’ll do for each of your current Part D drugs that aren’t on our formulary, or if you have limited ability to get your drugs:

- We’ll temporarily cover up to a 30-day supply of your medicine when you go to a pharmacy.
- We won’t pay for these drugs after your first 30-day supply, even if you’ve been a member of the plan for less than 90 days, unless we have granted you a formulary exception.

If you’re a resident of a long-term care facility and you take Part D drugs that aren’t on our formulary, we’ll cover up to a 31-day supply, plus refills for a maximum of a 91-98 day supply of your current drug therapy (unless you have a prescription written for fewer days). We’ll cover more than one refill of these drugs for the first 90 days you’re a member of our plan. We’ll cover a 31-day emergency supply of your drug (unless you have a prescription for fewer days) while you ask for a formulary exception if:

- You need a drug that’s not on our formulary or
- You have limited ability to get your drugs and
- You’re past the first 90 days of membership in our plan

Throughout the plan year, you may have a change in your treatment setting (the place where you receive and take your medicine) because of how much care you need. These changes include:

- Members who are discharged from a hospital or skilled-nursing facility to a home setting
- Members who are admitted to a hospital or skilled-nursing facility from a home setting
- Members who transfer from one skilled-nursing facility to another and use a different pharmacy
- Members who end their skilled-nursing facility Medicare Part A stay (where payments include all pharmacy charges) and who now need to use their Part D plan benefit
• Members who give up Hospice Status and go back to standard Medicare Part A and B coverage
• Members discharged from chronic psychiatric hospitals with highly individualized drug regimens

For these changes in treatment settings, the Humana Medicare Employer Plan will cover as much as a 31-day temporary supply of a Part D-covered drug when you fill your prescription at a pharmacy. If you change treatment settings multiple times within the same month, you may have to request an exception or prior authorization and receive approval for continued coverage of your drug. The Humana Medicare Employer Plan will review these requests for continuation of therapy on a case-by-case basis when you’re on a stabilized drug regimen that, if changed, is known to have risks.

**Transition extension**
The Humana Medicare Employer Plan will consider on a case-by-case basis an extension of the transition period if your exception request or appeal hasn’t been processed by the end of your initial transition period. We’ll continue to provide necessary drugs to you if your transition period is extended.

A Transition Policy is available on Humana's Medicare website, [Humana.com](http://Humana.com), in the same area where the Prescription Drug Guides are displayed.
For More Information

For more detailed information about your Humana Medicare Employer Plan prescription drug coverage, please read your Evidence of Coverage (EOC) and other plan materials.

If you have questions about Humana, please visit our website at Humana.com/medicaredruglist. The Drug List Search tool lets you search for your drug by name or drug type.

If you’re thinking about enrolling in a Humana Medicare Employer Plan and need help or information, call the Group Medicare Customer Care number listed in your enrollment materials. Current members should call the number listed in your Annual Notice of Change (ANOC) or Evidence of Coverage (EOC), or call the number on the back of your membership card Monday through Friday, from 8 a.m. - 9 p.m. Eastern time. Our automated phone system may answer your call on Saturdays, Sundays, and some public holidays. Please leave your name and telephone number, and we'll call you back by the end of the next business day.

If you have general questions about Medicare prescription drug coverage, please call Medicare at 1-800-MEDICARE (1-800-633-4227) 24 hours a day, seven days a week. TTY users should call 1-877-486-2048. You can also visit www.medicare.gov.
Humana Medicare Employer Plan Formulary

The formulary that begins on the next page provides coverage information about some of the drugs covered by the Humana Medicare Employer Plan. If you have trouble finding your drug in the list, turn to the Index that begins on page 158.

Your Humana Medicare Employer plan has additional coverage of some drugs. These drugs aren't normally covered under Medicare Part D. These drugs aren't subject to the Medicare appeals process. These drugs are listed separately on page 155.

How to read your formulary
The first column of the chart lists categories of medical conditions in alphabetical order. The drug names are then listed in alphabetical order within each category. Brand-name drugs are CAPITALIZED and generic drugs are listed in lower-case italics. Next to the drug name you may see an indicator to tell you about additional coverage information for that drug. You might see the following indicators:

SP - Medicines that are typically available through a specialty pharmacy. Please contact your specialty pharmacy to make sure your drug is available.

MO - Drugs that are typically available through mail-order. Please contact your mail-order pharmacy to make sure your drug is available.

The second column lists the tier of the drug. See page 4 for more details on the drug tiers in your plan.

The third column shows the Utilization Management Requirements for the drug. The Humana Medicare Employer Plan may have special requirements for covering that drug. If the column is blank, then there are no utilization requirements for that drug. The supply for each drug is based on benefits and whether your doctor prescribes a supply for 30, 60, or 90 days. The amount of any quantity limits will also be in this column (Example: "QL - 30 for 30 days" means you can only get 30 doses every 30 days). See page 5 for more information about these requirements.

Your Humana Medicare Employer plan has additional coverage of some drugs. These drugs aren’t normally covered under Medicare Part D. These drugs aren’t subject to the Medicare appeals process. The amount you pay when you fill a prescription for these drugs does not count toward your total drug costs (in other words, the amount you pay does not help you qualify for catastrophic coverage). Also, if you’re receiving Extra Help to pay for your prescriptions, you will not get any Extra Help to pay for these drugs.

This formulary was updated on 09/06/2016. For more recent information or other questions, please contact Humana Medicare Employer Plan at the number on the back of your membership card or, for TTY users, 711, Monday through Friday, from 8 a.m. - 9 p.m. Eastern time. Our automated phone system may answer your call on Saturdays, Sundays, and some public holidays. Please leave your name and telephone number, and we'll call you back by the end of the next business day, or visit Humana.com.

Humana is a Medicare Advantage organization and a stand-alone prescription drug plan with a Medicare contract. Enrollment in this Humana plan depends on contract renewal.

This information is not a complete description of benefits. Contact the plan for more information. Limitations, copayments and restrictions may apply. Benefits, premium and/or co-payments/co-insurance may change (on January 1 of) each year. The Formulary may change at any time. You will receive notice when necessary.

This information is available for free in other languages. Please call our customer service number at the number on the back of your membership card.

Esta información está disponible sin costo en otros idiomas. Comuníquese con nuestro Departamento de Servicio al Cliente llamando al número impreso en el dorso de su tarjeta de identificación (ID) como afiliado. Si usa un TTY, llame al 711.
