

**LIST OF MEASURES REQUESTED FROM  
MIKE MADELENA FOR ANNUAL FRAMEWORK  
REPORT**

- 1.) **Human Papillomavirus (HPV ) vaccine for Female Adolescents** – (Measure Steward: NCQA/HEDIS) – percentage of female adolescents that turned 13 years old during the measurement year and had three doses of the HPV vaccine by their 13<sup>th</sup> birthday.
- 2.) **Weight Assessment and Counseling for Nutrition and Physical Activity for Children/Adolescents: Body Mass Index Assessment for Children/Adolescents** – (Measure Steward: NCQA/HEDIS) - the percentage of members 3 to 17 years of age continuously enrolled for calendar year that had an outpatient visit with a primary care practitioner or obstetrical/gynecological, and whose weight is classified based on body mass index percentile for age and gender during the measurement year.
- 3.) **Child and Adolescent Access to Primary Care Practitioners** – (Measure Steward: NCQA/HEDIS) – percentage of children and adolescents ages 12 months to 19 years that had a visit with a PCP, including four separate percentages: Children ages 12 to 24 months and 25 months to 6 years that had a visit with a PCP during the measurement year; Children ages 7 to 11 years and adolescents ages 12 to 19 years that had a visit with a PCP during the measurement year or the year prior to the measurement year.
- 4.) **Childhood Immunizations** - (Measure Steward: NCQA/HEDIS)\_ – the percentage of children 2 years of age during the measurement year and had specific vaccines by their second birthday. The measure calculates a rate for each vaccine and nine combination rates.)
- 5.) **Adolescent Immunizations** – (Measure Steward: NCQA/HEDIS) – Percentage of adolescents who turned 13 years of age during the measurement year and had specific vaccines by their 13<sup>th</sup> birthday. The measure calculates a rate for each vaccine and one combination rate.
- 6.) **Developmental Screening in the First Three Years of Life** – (Measure Steward: CAHMI/NCQA) – assesses the extent to which children at various ages from 0-36 months were screened for social and emotional development with a standardized documented tool or set of tools.
- 7.) **Annual Pediatric Hemoglobin A1C Testing** – (Measure Steward: NCQA) – percentage of children ages 5 to 17 with diabetes (type 1 and type 2) that had a Hemoglobin A1c test during the measurement year
- 8.) **Wellness Visits First 15 Months** – (Measure Steward: NCQA/HEDIS) - the percentage of members that turned 15 months old during the measurement year and had zero, one, two, three, four, five, or six or more well-child visits with a primary care practitioner during their first 15 months of life.
- 9.) **Well Child Visits in the 3<sup>rd</sup>, 4<sup>th</sup>, 5<sup>th</sup>, and 6<sup>th</sup> Years of Life** – (Measure Steward: NCQA/HEDIS) – these measures estimate the number of children ages three to six that had one or more well-child visits with a primary care physician.
- 10.) **Adolescent Well-Care Visit** – (Measure Steward: NCQA/HEDIS) –these measures estimate the number of children ages 12-19 years of age that had at least one comprehensive well-care visit with a primary care physician or obstetrical/gynecological provider during the measurement year.
- 11.) **Percentage of Eligibles That Received Preventive Dental Services** – (Measure Steward: CMS) - percentage of individuals ages 1 through 18 that are enrolled in CHIP, are eligible for EPSDT services, and that received preventive dental services.
- 12.) **Percentage of Eligibles That Received Dental Treatment Services** – (Measure Steward: CMS) – percentage of individuals ages 1 to 18 that are enrolled in CHIP, are eligible for EPSDT services, and that received dental treatment services.
- 13.) **Medication Management for People with Asthma** – (Measure Steward: NCQA/HEDIS) – percentage of children ages 5 to 19 that were identified as having persistent asthma and were dispensed appropriate medications that they remained on during the treatment period. Two rates are reported: percentage of children on an asthma controller medication for at least 50 percent of their treatment period; percentage of children that remained on an asthma controller medication for at least 75 percent of their treatment period. This measure is reported using the following age ranges: 5 to 11 years; 12 to 18 years.

- 14.) **Follow-Up after Hospitalization for Mental Illness** – (Measure Steward: NCQA/HEDIS) – percentage of discharges for children ages 6 to 19 that were hospitalized for treatment of selected mental health disorders and that had an outpatient visit, an intensive outpatient encounter, or partial hospitalization with a mental health practitioner within 7 days of discharge and within 30 days of discharge.
- 15.) **Follow-Up Care for Children Prescribed Attention Deficit Hyperactivity Disorder (ADHD) Medication** – (Measure Steward: NCQA/HEDIS) – percentage of children newly prescribed ADHD medication that had at least three follow-up care visits within a 10-month period, one of which was within 30 days from the time the first ADHD medication was dispensed, including two rates: one for the initiation phase and one for the continuation and maintenance phase.
- 16.) **Annual Percentage of Asthma Patients 2 through 18 Years Old with One or More Asthma-Related Emergency Room Visits** – (Measure Steward: Alabama Medicaid) – percentage of children ages 2 to 19 diagnosed with asthma during the measurement year with one or more asthma-related emergency room (ER) visits.
- 17.) **Ambulatory Care – Emergency Department (ED) Visits** – (Measure Steward: NCQA/HEDIS) – Rate of ED visits per 1,000 enrollee months among children up to age 19.

**List of reports requested by WVCHIP Executive Director Annually:**

1. **Adult Diabetes Measure – applied to children** – (Measure Steward: NCQA/HEDIS) - percentage of pediatric patients with Type I and Type II diabetes with a hemoglobin A1c test in a twelve-month measurement period. Criteria also collected for those children with Type I and Type II diabetes that had serum cholesterol level screening; an eye exam, and a screen for kidney disease.
2. **Preventive Dental Visit** - the total number of unduplicated children receiving preventive dental services for the entire calendar year.
3. **Annual Dental Visit** – estimates the number of children continuously enrolled for calendar year, ages 2 to 19, which had at least one dental visit during the year.
4. **Treatment Dental Visit** – estimates the number of children continuously enrolled for calendar year, ages 2 to 19, which had at least one dental treatment visit during the measurement year.
5. **Vision** - estimates the number of children continuously enrolled for calendar year who received a vision visit.
6. **Utilization Rate/CHIP Expenditures/Services/Enrollment** - estimates cost of services per member per year for: Dental; Vision; Asthma; ER; Immunization Services, and Well-Child Visits.
